

NHS & IBM - What's the plan: Client Meeting Minutes 1

Team 32 - Byoung Hun Min, Shivam Shah, Eduard Ursinschi

Meeting Date: 12 October 2016

Meeting Start Time: 17:00

Meeting Participants:

Shivam Shah

Brian Min

Eduard Ursinschi

Paul Fleming

Topics:

- Initial What's The Plan project introductions: we discussed the background and context of the project and what the motivations were. This included an example scenario for a patient and how this proposed mobile app could solve their problem.
- We also explored the general goals of the application based on the motivations of the project. This was **not** the requirements gathering process as of yet, simply a discussion of general goals.
- Lastly, we requested some sample data such as medications, allergies, care plan etc. This would help us identify what information the app would process and identify what the input fields in the app would need to be (free-text or predefined values).

Meeting End Time: 18:00
